Implemented Standards under Codex in the Maldives

National Standard for Labelling Prepackaged Food

The nationwide standard for labelling for prepackaged foods based on Codex texts as a foundation, which was released in September, 2016

General Principle of Food Hygiene

The principle for general food hygiene set for all food establishments registered in Maldives Food and Drug Authority, released in February, 2018

General Regulation for Food Establishment and Services

The general regulation set nationwide for companies in production, harvesting, transport, storage of sale of food in the Maldives under Codex texts, released in 2007

Regulation on Import, Produce and Sale of Breast Milk Substitutes in the Maldives

Regulations set on the manufacturers, distributors and importers of Breast Milk Substitutes to the Maldives, released in 2008

Ongoing Activities / Standards under Codex in the Maldives

Codex Trust Fund to the Maldives

- Nationwide project to increase awareness on Codex & food safety using:
 1. Social Media
 2. Awareness Programs
 3. Regulations & Manuals
 4. Training of Trainers
- Advocacy on **Food Safety Bill to the policy makers (CTF Supported)**
- Budget: \$210,000
- Period: 4 years (2021 – 2024)

National Standard for Bottled / Packaged Drinking Waters (other than natural mineral waters)

This standard applies to waters for drinking purposes other than natural mineral waters, as defined in the revised Codex Standard CXS108-1981, Pre-packaged/bottled and are suitable for human consumption. Expected to be published at the start of 2024.

Thank You
