Generation Green, this is how the King baptized the new agricultural strategy. This succeeds the Green Morocco Plan 2008-2019. Generation Green will be the strategy for the years 2020-2030. IT very ambitious. Here are its main objectives and axes, as they were presented to the King on Thursday, February 13, 2020.

- ONSSA creation law
- > FOOD Law

A new law to strengthen the sanctioning powers of Onssa

Par H.G.

December 11, 2019 at 5:10 p.m. | Modified April 11, 2021 at 2:44 am

The sanctioning powers of
Onssa are weak. A draft
amendment to Law No. 28-07 is
being prepared to endow the
Office with more extensive
powers, Médias24 learned from

2- To Strengthen the control: Implementation of « Mobile brigades »

The Mobile Unit is a brigade constituted (in 2020) to help and strengthen the inspection and control provided by the provincial inspection services,

Mobile units will be generalized throughout all territory of Morocco from the year 2022.

3- Digitalization : pursuing digitalization of the main processes

The ONSSA system / SIPS (système d'information phytosanitaire et sanitaire)

The SIPS is an information system that digitizes ONSSA's processes,

It also has interfaces with "le guichet unique" "Portnet" and with the international hub "ePhyto", which also facilitates operations linked to trade.

ECONOMY

ONSSA adopts electronic certification of plant products exported to the EU

September 20, 2021 at 12:42 p.m. | Modified September 20, 2021 at 1:16 p.m.

The National Food Safety Office (ONSSA) signed and electronically certified plants and plant products exported to the European Union (EU).

ONSSA: Watermelon does not contain contaminants

By The Economist | The 05/09/2021 - 11:02 | To share

Moroccan watermelon complies with food safety standards and does not contain contaminants, said the National Food Safety Office (ONSSA). The results of the samples analyzed, as part of the watermelon monitoring and control plan during the current campaign (year 2021), revealed the absence of contaminants in this fruit, namely residues of pesticides, heavy metals. (lead and cadmium) and bacteria (salmonella and coliforms).

المغرب.. الموز المعروض في الأسواق الوطنية "سليم" (أونسا)

الرباط – نفى المكتب الوطني للسلامة الصحية للمنتجات الغذائية (أونسا)، اليوم الإثنين، بشكل قاطع صحة الأخبار الزائفة المتداولة حول الموز الذي يتم تسويقه في الأسواق المغربية، مطمئنا الرأي العام بأنه "سليم" على عكس ما تمت إشاعته.

وذكر بلاغ للمكتب أنه "على إثر تداول فيديو على منصات التواصل الاجتماعي يزعم استيراد شحنة موز فاسد من الصومال تحتوي على أحد الديدان التي تسبب تسمما في المعدة، ويدعو المواطنين، في الوقت ذاته، إلى الامتناع عن شراء وأكل الموز، ينهي (أونسا) الى علم الرأي العام بأن الأمر

أهداف سجل وقاية النباتات

كل فلاح ملزم بالتوفر على سجل وقاية النباتات. إذ يعتبر هذا السجل:

أداة للتتبع والمراقبة الذاتية والرسمية لاستعمال المبيدات الفلاحية على مستوى الضيعات

أداة لاتخاذ القرارات خاصة منها المتعلقة بالمعالجة والجني

ويهدف هذا السجل إلى ضمان الإستعمال الآمن والمعقلن للمبيدات الفلاحية
