There is a biosolution for

Sustainable ecosystem from farm to fork is good for everyone

Sustainable farming

Efficient food production

Healthy & sustainable life-style

By 2050 we'll
need to feed
2 billion more
people

It's time for a transformation in Egypt.

Egyptian consumers want more

Taste, texture and appearance

Health and well-being

Affordability

Convenience

Sustainability

The economy is challenging

High inflation

Economic uncertainty

Rising energy costs

Regulations are intensifying

Ingredient labelling

Nutritional labelling

Food safety

CO₂ emissions

We offer deep expertise with a focus on your business

Cheese

Fresh Dairy

Plant-based Dairy

Meat, Plant-based
Meat & Seafood

Baking

Juice Processing

Functional Foods

Let's bring biology back to make better food and waste less

Our enzymes help keep bread fresh and soft for longer.
To date, our biosolutions have saved:

Let's bring biology back to make better foods simpler

From fermentation enabled by cultures...

... to complex labels...

... back to simpler labels, enabled by biology

Co-create with a partner you can trust

Create opportunities
