	Draft standard for spices derived from dried or dehydrated fruits and berries – allspice, juniper berry and star anise	
	Draft standard for spices derived from dried or dehydrated fruits and berries – vanilla	
	Draft standard for dried or dehydrated roots, rhizomes and bulbs - turmeric	

UPDATE TO THE TEMPLATE FOR THE SPICES AND CULINARY HERBS (SCH) STANDARDS

Background

The chair of this work, the United States of America, explained that efforts had been initiated to update the template before the session commenced. However, due to a significant number of CRDs on this subject arriving late, the task could not be completed prior to discussions on this agenda item. However, after analyzing the comments received, it was recognized that inclusion of individual SCH names could be introduced in various sections (e.g., Sections 2.1.1, 3.2.2, 3.2.4, 4, and 8.1.1), parameters contained in Table 1: Chemical characteristics for {SCH group name} could be adjusted, and the parameters in Table 2: Physical characteristics for {SCH group name} could be presented either horizontally or vertically .

Conclusion

□ CCSC7 agreed to:

- i. Encourage active participation of Members and Observers in all discussions of the template for SCH standards and urged timely provision of comments; and
- ii. Publish the updated template prepared by the United States for America as a CRD and deferred its consideration to CCSC8.

Recommendations

- ✓ Encouraging all Arab region countries to participate in EWGs that related to their interested issues.
- ✓ Encourage active participation of Arab Region countries in all discussions of the template for SCH standards and urged timely provision of comments.

Recommendations

For coordination between the Arab countries :

1- Holding virtual meeting to discuss the Arab countries positions on any Circular Letter (CL) before deadline of reply on CL, in order to give the countries an opportunity to review the national position before the meeting through the competent authorities.

2- Holding coordination meetings between the countries of the region or other countries of the another region, in sufficient time before the meeting of the International Committee, in order to give the opportunity to review the national position within each country through the competent authorities.
